AGENT COMMISSION RATES

(DEVOTED HEALTH)

2024 Annual Election Period

Medicare payments, rates and the timing of payments, is governed by the Centers for Medicare & Medicaid Services (CMS). CMS guidelines are very strict and outside carriers and Main Line Benefits, LLC are legally obligated to follow their compensation rules. The following compensation guidelines adhere to CMS rules.

Replacement Rate Commissions:

After the carrier receives an application for Medicare from the agent, client eligibility is determined and a report is sent to CMS enrolling that client in the Medicare Advantage Plan and/or the PDP. CMS will determine if the client is a "Replacement" for existing Medicare coverage or if they are "New to Medicare". As soon as Main Line Benefits, LLC is notified that the client has been confirmed by CMS as a "Replacement" and the carrier has made payment to Main line Benefits, an agent will receive credit for the client.

Main Line Benefits, LLC is notified that the client has been confirmed by CMS as "New to Medicare" and the carrier has made payment to Main Line Benefits , an agent will receive credit for the client. If an agent has elected the Advance option, replacement payment will be applied to Unearned / Advance account and any remaining differences will be applied to Agent / Back-End Account. If agent did not elect the Advance option, the entire payment will be applied to Agent / Back-End Account.

MA, MAPD - Electronic & Paper App	CT/PA/DC	$345	Per Year
MA, MAPD / DSNP**	FL	$274.01	Per Year
PDP	All States	$38.64	Per Year

Renewal rates are paid monthly in most cases, not annually.

Renewal rates are subject to change based on Carrier payment methodology.

***CMS rules require agents to recertify annually in order to receive renewal commissions.**

Chargeback Rules:

If a customer cancels their certificate within the first 3 months, all commissions will be reversed. This is referred to as a Rapid Disenrollment. After the Rapid Disenrollment period, any cancellation request from the client will result in a pro-rata portion of the annualized commission being reversed. For example, if a policy is issued 1/1/2024 and the customer cancels during May, the agent has only earned 5 months of commission and 7 months of commission will be reversed.

Payment Methodology:

Policies for people Aging-In to Medicare and purchasing a Medicare Advantage policy for the first time will pay the full first year commission rate noted above, regardless of the month in which the effective date falls (i.e. same amount will be paid if the effective date is January 1 or December 1. Carriers normally pay a pro-rated amount initially, and once they receive confirmation from CMS that the person is "New to Medicare " they will pay the remaining amount or reverse the initial payment and make the full first year payment. In some cases, Carriers may wait for confirmation from CMS before payments will be sent to Main Line Benefits, LLC. Main Line Benefits will follow the carrier's payment methodology, but ultimately the agent will be paid the full first year amount.

Special Enrollment Period:

Annual Enrollment Period (10/15/2023 to 12/7/2023) will be for policies with effective date of 2024. Any business sold during the Special Enrollment Period (12/08/2023 to 10/14/2024), the same compensation terms and conditions apply except the amounts will be pro-rated by the number of months remaining in 2024. For example, a Medicare Advantage policy sold with a March 1, 2024 first effective date would pay 10/12ths (or 83%) of the AEP compensation schedule. A Medicare Advantage policy sold with a July 1, 2024 first effective date would pay 6/12ths (or 50%) of the AEP compensation schedule.

It's important to note that some carriers may annualize SEP business; Main Line Benefits will handle those instances on a case by case basis and pass along the benefit of any annualized payment, consistent with how the carrier pays Main Line Benefits.

Proration during SEP:

Most carriers prorate during SEP. Carriers MAY follow one of these scenarios.

Replacement is prorated, after CMS verification, prorated payment is reversed and full "New to Medicare" payment is made

Replacement is prorated, after CMS verification, a true-up payment is made equal to the difference between original prorated payment and full "New to Medicare" payment

Replacement is prorated, after CMS verification, an additional prorated "New to Medicare" payment is made. Additional payment is made equal to the full "New to Medicare" minus full "Replacement". This additional payment is then prorated for number of months policy is effective during 2022.

Commission rates are subject to change at any time and will be paid according the CMS guidelines with 10 days' notice to agent. Advances are paid at Main Line Benefits sole discretion and can be changed at any time. Changes in commission rates or advance rates are posted on the Agent Center under the Compensation Tab.
