

Instructions for Adding a Proxy

Go to the Agent Profile screen under the Agent Tools dropdown or by clicking your name at the top right of the page. At the bottom of the Agent Profile screen is the proxies section. This will show existing proxies (if applicable) and also features the *+Add Proxy* link:

The screenshot shows the 'My Proxies' section of the Agent Profile screen. It features a header with the title 'My Proxies' and a row of links: 'Proxy Name', 'Commercial Commission Reports', 'Medicare Commission Reports', 'Medicare Tools', and 'Email for Messages'. Below the 'Proxy Name' link is a red-bordered button labeled '+ Add Proxy'. In the bottom right corner, there is a green button labeled 'SAVE CHANGES'.

After clicking *+Add Proxy*, you will just need to enter the proxy's information, select their permissions, and click Submit. If the proxy already has an account, their name and phone number will be auto-populated after entering their email.

The screenshot shows the 'Add Proxy' form. It has a title 'Add Proxy' and a 'Proxy Email' input field. Below this are three input fields for 'First name', 'Last name', and 'Phone number'. Under the 'Permissions:' section, there are four toggle switches for 'Commercial Commission Reports', 'Medicare Commission Reports', 'Medicare Tools', and 'Email for Messages'. At the bottom, there is a paragraph of text: 'Agent hereby authorizes SelectHealth to grant access to the Agent's online information indicated above to the individuals listed on this form. Agent represents and warrants that they have the authority and have taken the necessary steps and actions to allow this access. Agent further represents and warrants that this request is in compliance with all applicable laws, rules, and regulations, including HIPAA and ERISA.' and a 'SUBMIT' button.

After clicking submit, the new proxy will receive an email with instructions for setting up their account, and you will receive a PIN that you will need to give to the proxy for them to complete their account setup (the PIN is valid for 72 hours). For proxies who have an existing account, the process is completed after clicking Submit.

Reminder: Agents must log in to their account at least once per year to attest their proxies. On the Agent Profile screen, go to the bottom of the page (below the proxy list) and click the I Agree button to verify that the information and proxies listed are correct. If this is not completed once a year, proxies will lose access to the agent's account.
